Greenway Park Bond Overview

Potential Greenway Projects

Project numbers do not represent priority of the projects, but rather are for identification only to be used in conjunction with locating the projects on the associated map.

Listed are currently identified projects that would be eligible to be completed with bond funds; however, the total amount of projects listed exceeds the bond amount subject to the referendum. If approved by the voters, bond financed projects would be completed over a number of years so projects may be added or removed as circumstances warrant.
